Parents and Teachers

**Do You Want to
Take the Stress Out
of Raising and Teaching Kids?**

***We are recognized facilitators
of the Love and Logic approach
and we can HELP...***

FOR PARENTS

Love allows children to grow through their mistakes. *Logic* allows children to live with the consequences of their choices.

It's never too late for parents to begin using the Love and Logic techniques regardless of whether your family has a teenager or toddler.

YOU WILL LEARN:

- simple, practical, and easy techniques
- specific how-to's of successful parenting, not just theoretical concepts
- techniques that produce immediate results
- alternative ways to communicate with your children
- great comebacks all parents need to know

BENEFITS:

- happy, fun families
- parents feel more empowered
- children develop and grow in a healthy way
- provides children with confidence and dignity

FOR TEACHERS

The *9 Essential Skills for the Love and Logic Classroom* is guided by principles firmly grounded in research.

YOU WILL LEARN HOW TO:

- teach children to own and solve the problems they create
- avoid power struggles
- combine consequences with high levels of empathy and warmth
- build the adult-child relationship
- end student arguing and set limits without lectures
- develop skills to prevent problems and save time for teaching

BENEFITS:

This program ultimately teaches children how to become more responsible. By encouraging the home-school connection and promoting collaboration, we create a positive atmosphere where everyone wins!
